

Hi,
I'd like you to do some research. You will need to bring your work into school when we are back or you can email it to me lspalding@st-ants.org

Look up the Sculptor Andy Goldsworthy. Make an information page about his work and collect lots of images of his work.

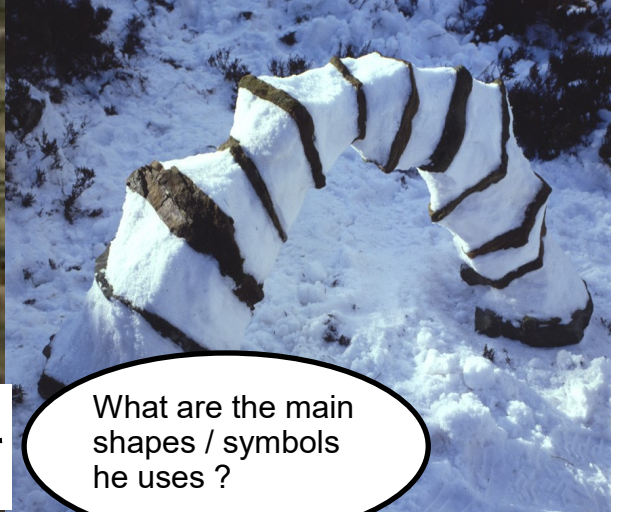

Andy Goldsworthy

What materials does he use ?

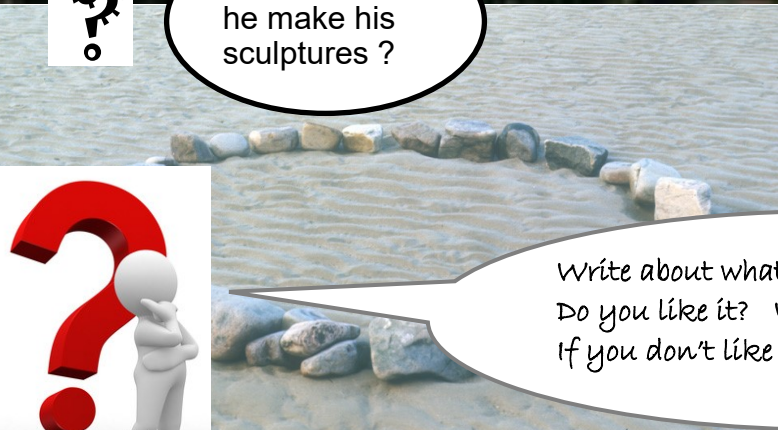

What are the main shapes / symbols he uses ?

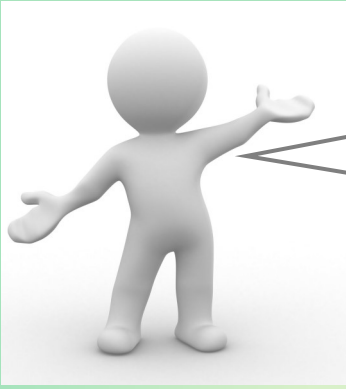

Where does he make his sculptures ?

How does he make his sculptures ?

Write about what you think of his work.
Do you like it? Why? Explain....
If you don't like it, Why? Explain...

Can you try to make some of your own Goldsworthy style sculptures. You can do this in your garden or inside with items collected from the garden. Use leaves, flowers, stones, twigs, feathers, anything natural.

Think about -
Shape
Size
Material
Space
Colour

Bring your photos to school (on a USB) or email them to me.

Take photos making your sculpture / sculptures. Take photos of your final sculpture. You can use a camera or your phone.
