

Welcome to Year 9 Food Technology Home Learning!

This term you will be learning about traditional dishes from Mexico and America as part of our 'Foods from Around the World' topic.

The following activities are to be completed once you have finished all of the Food Technology activities in your homework booklets. The following activities are extra things for you to try at home. We hope that you enjoy doing them.

Don't forget to send us your amazing work and any photos of your cookery skills! Keep cooking!

Mexican Foods

There are lots of different types of Mexican dishes using tortilla wraps. How many different types can you find?

Types of Mexican dishes using tortilla wraps

Why do you think that there are so many?

American Foods

Make a collage or a design a poster showing different classic American foods.

Welcome to Year 9 Food Technology Home Learning!

A Guide for Parents and Carers.

Your child can complete the two paper based activities in the following ways: Write, draw, cut and stick pictures from magazines .

If you are able to visit your local supermarket with your child have a look for different types of curry sauces. Or help your child search online for different examples.

We have also added two step by step recipes with symbols for you to make with your child. They will need to be supported and supervised when using knives, hobs and ovens.

Please send me photographs of your child cooking at home and their finished dish.

Kind regards, *L. Pratt*
