WHAT'S IN A TRANGIA STOVE?

FRYING PAN/LID.....

PANS.....

UPPER WINDSHIELD.....

METHS BURNER.....

LOWER WINDSHIELD.....

PACKED UNIT.....

SERIES 25

Series 25 is a larger stove suitable for groups of 3-4 people. They are excellent family stoves with larger pans, frying pan and kettle than the Series 27. With the supports in the raised position, the stove can be used with large billies, available as an accessory, to cook for 8 to 10 people.

SERIES 27

Series 27 offers stoves for the lone walker or two people. These small, compact stoves take up minimal room in your rucksack. Large billies, available as an accessory, can be placed on the raised supports in the upper windshield giving flexibility in capacity when cooking or boiling water.
