

KS3 + KS4

Information for pupils

Back to school.

School has been different this year because of coronavirus (COVID-19).

You have worked hard to stop the virus spreading.

You have washed your hands more often and stayed apart from people you don't live with.

School is starting back soon and the school staff can't wait to see you.

We have missed you!

Making School Safe

To make school safe, we have a plan for everybody to follow.

A plan is a list of things to keep everybody safe.

When you come back some things will be the same and some will be different.

You will follow your normal timetable but move to classrooms using outside routes.

You will still need to try and keep 2 metres or 3 large steps away from other

people.

You will still need to wash your hands for 20 seconds to keep them clean.

What will my classroom look like?

The tables will be facing the front of the class in lots of classrooms

You may sit in pairs next to a friend on a shared table.

Some tables will be separated by clear screens.

Doors and windows will be kept open.

There will be special cleaning kits in each room to keep tables and equipment clean.

You will need to bring your own pencil case.

This will help keep you and other people safe from germs.

How do I socially distance in school?

Try to keep 2 metres apart from other people when you are in corridors, on

the playground or walking around school.

You can use different ways to say hello to people when you see them.

You can wave, smile or do a high five in the air.

Corridors will be masked with tape to show you where to stand and walk.

For the first 2 weeks groups of children will come into school on different days.

There will be less people in school.

You will come into school and leave school using different doors.

What about lunchtime?

Some people will go to the lunch hall to eat their lunch.

Some people will bring in a packed lunch from home and eat in a classroom.

If it is warm you can sit outside and eat your packed lunch with your tutor group.

Try to keep 2 metres apart from other people who are not in your tutor group

when you are on the playground.

You should wash your hands before and after eating your lunch.

Washing your hands

At school you will need to wash your hands lots of times during the day.

20

Use soap and water and wash for 20 seconds.

You can also use hand gel in between lessons.

Try not to touch your eyes, nose or mouth with unwashed hands

You will clean your hands between lessons and before and after lunch and play.

What about school trips, assemblies, residential and prom?

Some activities and events may need to be cancelled.

There will be no whole school assemblies.

Assemblies will take place in your tutor groups.

Miss Ball will be delivering your certificates to your classroom!

The school will follow the advice given to us.

School will be different for a while.

What about my mobile phone?

We would prefer you to leave your mobile phone at home.

If your family want you to have a mobile phone in school, it must stay in your bag.

If your phone is out of your bag in school time it will be handed to our

Headteacher until the end of the day.

Managing your feelings.

You might feel excited, happy or worried about coming back.

If you feel worried you can make a plan with your parents or carers.

You can:

- Give them a big hug, wave or smile before leaving for school.

- Say 'See you soon!'

- Keep a photo of your family or pets in your bag.

- Bring a small non-electronic item from home to play with in calm time.

Remember your parents or carers will be waiting for you after school and will be

excited to hear all about your day.

There are lots of staff in school who can make you feel better and safe.

They are really good at this!

They can help you feel better if you talk to them.

We can't wait to see you.

See you soon!
