Maths	<u>Learning objectives:</u> <ul style="list-style-type: none"> Place value and ordering Addition and subtraction Properties of 2D/3D shape Angles, turns and direction Shapes, patterns and sequences Symmetry Mass and weight 		<u>Learning objectives:</u> <ul style="list-style-type: none"> Multiplication and division Length and height Area and perimeter Rounding and estimating Money Fractions Statistics and data collection 		<u>Learning objectives:</u> <ul style="list-style-type: none"> Addition, subtraction and algebra Time and roman numerals Capacity Decimals and percentages Problem solving Problem solving (number, measurement and money) 	
Science	Focus: Hazards <u>Learning Objectives:</u> Create awareness for safety within the lab and at home Identify hazards and hazard symbols on substances. Understand hazards and risk control during a practical activity/experiment.	Focus: States of matter and change of states <u>Learning Objectives:</u> Develop pupils' practical skills. Identify substances that exist as solid, liquid and gas. Identify that the states are dependable on temperature difference Understand the particle model in describing states of matter and change of state.	Focus: Electricity and electromagnetism <u>Learning Objectives:</u> Identify simple components used in making electric circuit. Develop pupils' practical skills. Make working series and parallel circuits. Identify stages in making electricity at the power station. Identify properties of magnet and application of electromagnetism.	Focus: Classification of organisms <u>Learning Objectives:</u> Identify the classification of organisms as plant and animal Classify vertebrates and identify their features. Identify parts of plant and stages in flowering plant reproduction.	Focus: Energy and energy resources <u>Learning Objectives:</u> Identify types of energy and energy resources. Develop pupils' practical skills. Identify transfer of energy. Understand the choice of energy resources in making electricity relate to green energy sources (renewable) and global warming	Focus: Earth's Resources and sustainability. <u>Learning Objectives:</u> To explore resources of the earth within a practical context, Identify finite and infinite raw materials and relate this to sustainability To explore separation techniques within practical context: Filtration, Distillation, Evaporation and Paper Chromatography.
